REPUBLICANS RUN WELL

Results of the Municipal Election Held Yesterday.

A TIE VOTE IN THE SECOND WARD

The Third Ward Declares for the Republican Candidate—Both Members of the Board of Education Elected, Nominees of the Grand Old Party—A Day of Excitement—Returns Gratifying.

From Wednesday's Daily.

The wintry weather of the past 'steem months perceptibly relaxed its hold yesterday and it was not to be wondered at. It was election day in Norfolk, and from early morning there was every indication of a warm time, and as the day progressed a hot time in the old town was strictly in evidence. The fact that it was an off year in politics didn't cut much of a figure. When the state or the nation cannot supply a sufficient amount of political caloric, the voters of Norfolk generate an ample volume—as every well regulated community should—to make things interesting.

The temperature ran highest in the Third ward where not only were there the two regular party tickets but a third candidate, by petition, for councilman. The result could not but be highly gratifying in that ward to all republicans. In the face of two opposing tickets the regular republican candidate won a clear and decided victory.

In the First ward Uhle, the democratic candidate, defeated Hemleben, republican, by 30 votes.

In the Second ward the result was a tie vote between the republican and democratic candidates.

Just what settlement of this condition of affairs will be finally reached is not yet known. There seems to be room for different interpretations of what the law contemplates in such a case.

Some claim that the statute provides that a tie shall be decided by lot before the canvassing board. If this prove true, the case will be decided in this way at the next meeting of the city council.

If Mr. Bucholz hold his place as councilman, the next council will have one more democratic member than the present. Should Mr. Scofield win out, the republicans will hold their own.

In the Fourth ward Heckman, republican, won out against Harshman, democrat, with a majority of four votes.

Both of the republican nominees for members of the board of education were easily elected over their democratic competitors.

Dr. P. H. Salter proved to be possessed of the best running qualities and Bruggeman, who succeeds himself on the board, was a good second.

Altogether the result was a complete endorsement of republican management of city affairs.

FIRST WARD.	
Hemleben, rep.	68
Uhle, dem.	98
SECOND WARD.	
Bucholz, dem.	116
Scofield, rep.	116
THIRD WARD.	
Bullock, rep.	114
Morrison, dem.	66
Mount, by petition	97
FOURTH WARD.	
Harshman, dem.	60
Heckman, rep.	64
The following was the vote received in the different wards by the various candidates for positions on the board of education:	
Bruggeman, rep.—1st 55, 2nd 104, 3d 139, 4th 56; total 354.	
Dean, dem.—1st 71, 2nd 107, 3d 115, 4th 52; total 345.	
Hulst, dem.—1st 106, 2nd 92, 3d 79, 4th 25; total 302.	
Salter, rep.—1st 93, 2nd 94, 3d 165, 4th 41; total 393.	

Dr. J. H. McLean's Strengthening Cordial and Blood Purifier is admirably adapted to make "a little health go a long way." Its curative power is largely attributable to its stimulating, nutritive and tonic properties, by which the energy of the system is recruited. It is pleasant to the taste, easily borne on the stomach, and harmless under prolonged use. Price 50c and \$1 a bottle. Sold at Koenigstein's pharmacy.

THE MONTH OF MARCH.

The Weather Summary Shows That Old Winter Held Her in His Relentless Grasp.

The weather for the month of March, 1899 was a keen disappointment.

The winter which began with the blizzard of October 17th had, with the exception of a few mild days the forepart of January, been one of unmitigated and almost unparalleled severity.

February had been a terror, not only to evil doers, but to those who were well disposed, as well. When March was ushered in, a gleam of hope shot above the horizon of the public mind and it was welcomed as bringing with it softer skies, gentler winds and other harbingers of spring. But it didn't. There wasn't a harbinger or any other old thing except old winter visible from start to finish. There were thirty one days of bleakness, storm and north winds. If occasionally there was an upward tendency it was only for a few hours, and then suddenly checked by a blast from snow blocked Wyoming or Dakota.

This immediate locality suffered less from snow and severe storms than the regions about us, but the month was only a continuation of a long cold winter such as the oldest inhabitant finds it difficult to duplicate even with the assistance of a vivid imagination.

The summary of the month as made by the voluntary observer, Dr. P. H. Salter, shows the record and will be noted with interest by News readers. Compared with the immense snow falls and heavy storms elsewhere prevalent, it makes a favorable showing for Norfolk.

The maximum temperature of March was 66 degrees, on the 9th.

Minimum temperature six degrees below zero, March 6.

Mean temperature 22 degrees.

Mean maximum temperature 31 degrees.

Mean minimum temperature 14 degrees.

Total precipitation .47 inches.

Greatest precipitation in 24 hours, .28 inches, on March 14.

Total snowfall during the month, about three inches.

No snow on ground at end of the month.

Number of clear days 13; partly cloudy seven; cloudy 11.

Number of days on which .01 or more precipitation fell, six.

Prevailing wind, north.

Have you heard of the famous Hot Springs, Arkansas? Hundreds of people are being cured there daily of the grip.

Latest Losses.

WASHINGTON, April 3.—Special to THE NEWS: The following additional casualties are reported from Manila April 1st:

Wounded, First Nebraska: Captain Martin Hergolsheimer, company D, in forearm, moderate, accidental.

Cable of February 7th from Manila reporting Egger killed is an error. There is no such person in First Nebraska.

G. D. MEIKLEJOHN, Acting Sec'y of War.

Does Coffee Agree With You.

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15 and 25c.

Why not shake the grip? Go to Hot Springs, Arkansas, and lose it.

POLICY AS TO FILIPINOS

American Commission Issues a Proclamation to the Natives.

ONLY ONE CONDITION IS IMPOSED.

Supremacy of the United States Will Be Enforced—Natives Assured That Their Best Interests Will Be Guarded—Civilization of the Islands and Happiness of People Striven For.

MANILA, April 5.—The preamble of the proclamation of the United States Philippine commission recites the occasion by the peace treaty of the Philippine islands to the United States, refers to the appointment of the commission, assures the people of the cordial good will and fraternal feeling of the president of the United States and the American people and asserts that the object which the United States government, apart from the fulfillment of its solemn obligations, has assumed toward the family of nations by the acceptance of the sovereignty over the islands, is the well being, prosperity and happiness of the Philippine people and their elevation and advancement to a position among the most civilized people of the world.

Unfortunately these pure aims and purposes of the American government and people have been misinterpreted to some of the inhabitants of certain islands, and as a consequence the friendly American forces have, without provocation or cause, been openly attacked.

The commission emphatically asserts that the supremacy of the United States must and will be enforced throughout every part of the archipelago, and those who resist it can accomplish no other than their own ruin. It is willing and anxious to establish an enlightened system of government under which the people may enjoy the largest measure of home rule and the amplest liberty consonant with the supreme ends of the government and compatible with those obligations which the United States has assumed towards the civilized nations of the world.

The proclamation then says there can be no real conflict between American sovereignty and the rights of the Filipinos, for America is ready to furnish arms and navies and all the infinite resources of a great and powerful nation to maintain its rightful supremacy over the islands; so it is even more solicitous to spread peace and happiness among the people and guarantee them their rights and liberties; to protect their just privileges and immunities; to accustom them to free self government and to encourage those democratic aspirations, sentiments and ideals which are the promise and potency of fruitful national development.

In conclusion the proclamation announces that the commission will visit the Philippine provinces to ascertain the enlightened natives' ideas as to the form of government, invites the leading representative men to meet the commission and declares the policy of the United States in the establishment and maintenance of the government is to consult the wishes and secure the advice and co-operation of the people.

MACARTHUR PUSHING NORTHWARD.

Moves His Forces Out From Malolos and Runs Across 1,000 Rebels.

MANILA, April 5.—General MacArthur reconnoitered in force yesterday with the Montana regiment, the Fourth cavalry and two guns of the light artillery as far as the river north of Malolos. The reconnaissance developed the fact that there are fully 1,000 rebels, armed with Mauser rifles, preparing for defense. Shots were exchanged and two of the Montana regiment were wounded, but there was no engagement. Later in the day General MacArthur moved northward, as the water supply of Malolos is inadequate.

The belief is spreading among the residents here that the effect of the capture of Malolos, the former rebel capital, followed by the proclamation of the United States Philippine commission, will be to convince the natives that Aguinaldo's bubble has burst. Dr. Schurman, president of the commission, said: "The Filipinos have been asking unceasingly 'What do you propose to do for us?' The proclamation answers the question and it should satisfy them."

The insurgents are massing forces north of Calumpit, about five and one-half miles northwest of Malolos, and according to the observations of the reconnoitering parties they have fine intrenchments there.

It is expected that hard fighting will be necessary to dislodge them at that point and at San Fernando, where Aguinaldo is supposed to be. Large rivers strengthen both positions. The Montana regiment had one man killed and three wounded yesterday. Twenty-five men were prostrated by the heat and brought to the hospital. Two new big Krupp guns, one six inch and the other eight inch, which were found buried at Malolos, will be mounted. The Americans have found 27,007 silver dollars.

Condemns Philippine War.

BOSTON, April 5.—A mass meeting under the auspices of the Anti-Imperialist league was held in Tremont temple last night and was attended by a large and enthusiastic audience. The principal speaker was ex-Secretary of the Treasury Boutwell, who condemned the Philippine war and severely criticised the administration.

Mattox Is In Hiding.

PONCA CITY, O. T., April 5.—Clyde Mattox, who killed Lincoln Swinney, a rancher, last night, is hiding near the Kaw reservation, 18 miles from here. Officers have been in pursuit of Mattox all day and at one time were near enough to exchange shots with the young desperado, but Mattox eluded them and escaped in the gathering darkness.

MRS. ANNA GEORGE ON TRIAL.

First Day Closes With Seven Men In the Jury Box.

CANTON, O., April 5.—The first day of the trial of Mrs. Anna E. George for the murder of George D. Saxton, brother of Mrs. McKinley, closed with seven men occupying seats in the jury box. Many attorneys of the city are attending the trial, which is expected to involve several very close legal points. Judge Isaac M. Taylor is presiding, and the crowd is so large that he appointed three extra bailiffs to serve in the court room during the trial, which is likely to occupy three or four weeks. Except the several women friends and women relatives of Mrs. George, there were not many women in the court room, although there were quite a number in the corridors. Three desired witnesses are still absent, but an agreement was reached to proceed without them. About 125 witnesses have already been subpoenaed and the list is being constantly increased.

Ten Find Watery Graves.

EBREKA, Cal., April 5.—The steamer Chikank capsize on the bar yesterday as she was leaving the harbor on her trip to San Francisco. The bar was rough, but the steamer was almost over and had blown three whistles to indicate the fact, and had turned toward the south when a breaker struck her beam and she immediately capsized. There were six passengers and 13 in the crew, all lost but nine. The vessel lies bottom up and is pounding in the breakers north of the south jetty. She will come ashore before long. The beach is strewn with wreckage.

The lost passengers are M. O. Buson, Peter Frye, E. O'Brien and E. J. Boland. The names of all the seamen lost are not yet known. The drowned include, however, the captain, F. P. Anderson; the second officer, name unknown; P. E. Capola, cook, and A. Johnson, seaman.

Strike of Iowa Miners.

DES MOINES, April 5.—At a mass meeting of the miners of the central district of Iowa yesterday it was voted to order a strike to take effect at once. The decision involves 2,000 miners. Operators are firm in refusal to raise the scale.

"It is now understood," declared Chairman Joyce, "that Des Moines district is on a strike, but it must be understood that when mines agree to pay their men 80 cents and give them an eight-hour day, men will be allowed to go back to work. It's 80 cents and eight hours."

Great Britain Accepts the Plan.

WASHINGTON, April 5.—Lord Salisbury has accepted the plan proposed by Germany for the settlement of the Samoan trouble by the appointment of a tripartite commission. The acceptance is on the broad principle only and the details of the arrangement are as yet to be agreed upon. As the United States has already accepted the general proposition there is no longer doubt as to the organization of the commission.

Ambassador Choate Recovers.

LONDON, April 5.—The United States ambassador, Joseph H. Choate, has almost recovered from his recent indisposition and went to Bournemouth today with his family.

Grain-O Brings Relief.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25 cents per package.

Every farmer and stock raiser should keep Sloan's Liniment on hand for an emergency. Ask your neighbor and he will tell you why. For sale by John Koenigstein.

S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of all Blood Diseases and Cures the Worst Cases.

In every test made S. S. S. easily demonstrates its superiority over other blood remedies. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no ailments or troubles so obstinate and difficult to cure. Very few remedies claim to cure such real, deep-seated blood diseases as S. S. S. cures, and none can offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure! It goes down to the very seat of all blood diseases, and gets at the foundation of the very worst cases, and routs the poison from the system. It does not, like other remedies, dry up the poison and hide it from view temporarily, trace of taint, and rid the system of it forever.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

S. S. S. FOR THE BLOOD

—is the only remedy that is guaranteed purely vegetable and contains no mercury, potash, arsenic, or any other mineral or chemical. It never fails to cure Cancer, Eczema, Scrofula, Rheumatism, Contagious Blood Poison, Tetters, Boils, Carbuncles, Sores, etc.

Valuable books mailed free by Swift Specific Company, Atlanta, Ga.
